Journal of Sports Sciences, 1998, **16**, 771–775

Subject index

Abstracts to the First International Conference on Heart Rate Monitoring and Exercise, S107
Accuracy, ambulatory, heart rate monitor, Polar, S3
Achievement cognitions, affect, motivational climate, 153
Achievement goals, motivation, Perception of Success Questionnaire, 337
Ad libitum drinking, carbohydrate supplementation, endurance running, prescribed drinking, recovery, rehydration, 143
Adrenocortical activity, fitness, psychological well-being, sense of effort, 121
Aerobic, anaerobic, muscular strength, performance, power, taekwon-do, 243
Aerobic power, biomechanics, body build, efficiency, height, injuries, lactate, nutrition, training, vital capacity, 603
Affect, motivational climate, achievement cognitions, 153
Afterload, concentric hypertrophy, eccentric hypertrophy, left ventricular mass, preload, remodelling, 129
Allometric models, concentric–eccentric actions, isokinetic muscle strength, sprint running, 257
Alpine skiing, biomechanics, three-dimensional analysis, turning techniques, 545
Ambulatory, heart rate monitor, Polar, accuracy, S3
Ammonia, creatine supplementation, lactate, phosphocreatine, sprint swimming, 271
Anaerobic, muscular strength, performance, power, taekwon-do, aerobic, 243
Anthropometry, development, fitness, motor tests, talent identification, 691
Anthropometry, measurement, median, reliability, 755
Apolipoproteins, blood lipids, cardiovascular disease, factor XIIa, high-density lipoprotein cholesterol, low-density lipoprotein cholesterol, walking, 701
'Archer's paradox', archery, arrow motion, shooting, simulation, 721
Archery, arrow motion, shooting, simulation, 'archer's paradox', 721
Arm exercise, arm + leg exercise, exercise intensity, leg exercise, rowing, upper body exercise, 309
Arm + leg exercise, exercise intensity, leg exercise, rowing, upper body exercise, arm exercise, 309
Arrow motion, shooting, simulation, 'archer's paradox', archery, 721
Athletic shoes, biomechanics, midsole density, 531
Athleticism, health, lifeway habits, longevity, physical activity, S31

Biological risk factors, cardiovascular disease, generalized estimating equations, longitudinal relationships, resting heart rate, S17
Biomechanics, body build, efficiency, height, injuries, lactate, nutrition, training, vital capacity, aerobic power, 603
Biomechanics, midsole density, athletic shoes, 531
Biomechanics, three-dimensional analysis, turning techniques, alpine skiing, 545
Biomechanics, soccer, soccer equipment, soccer injury, soccer skills, 211
Blood lipids, cardiovascular disease, factor XIIa, high-density lipoprotein cholesterol, low-density lipoprotein cholesterol, walking, apolipoproteins, 701
Body build, efficiency, height, injuries, lactate, nutrition, training, vital capacity, aerobic power, biomechanics, 603
Body composition, body mass index, energy, female runners, menstrual status, nutrient intakes, 629
Body mass index, energy, female runners, menstrual status, nutrient intakes, body composition, 629
Bone, exercise, health, heart rate, sport, S25
Book reviews, 111, 199, 291
Breaststroke styles, centre of mass, swimming, velocity variation, video analysis, 653
Breathing frequency, lactate threshold, protocol, stride rate, 667

Canoeing, talent identification, 539
Carbohydrate supplementation, endurance running, prescribed drinking, recovery, rehydration, *ad libitum* drinking, 143
Cardiac rehabilitation, lipids, lipoproteins, secondary prevention, S57

0264–0414/98 © 1998 E & FN Spon

Cardiovascular disease, factor XIIa, high-density lipoprotein cholesterol, low-density lipoprotein cholesterol, walking, apolipoproteins, blood lipids, 701
Cardiovascular disease, generalized estimating equations, longitudinal relationships, resting heart rate, biological risk factors, S17
Carnosine, hydrogen ion buffering, muscle, taurine, 639
Centre of buoyancy, competitive swimmers, sex differences, 373
Centre of mass, swimming, velocity variation, video analysis, breaststroke styles, 653
Cinematography, cricket, grip pressure, kinematics, kinetics, 711
Cluster analysis, kyphosis, lordosis, sportsmen, vertebral curvature, 621
Cohesion, sport teams, status, 187
Communications to the Annual Conference of the British Association of Sport and Exercise Sciences (BASES), 3
  Biomechanics, 3
  Interdisciplinary, 14
  Kinanthropometry, 25
  Physiology, 31
  Psychology, 68
Communications to the Second Annual Congress of the European College of Sport Science, 389
  Biomechanics, 407
  Exercise and Health, 504
  Kinanthropometry, 429
  Motor control, 400
  Nutrition, 500
  Physiology, 440
  Psychology, 389
  Sports medicine, 513
Communications to the Second World Congress of Science and Racket Sports and the Fifth International Table Tennis Federation Sports Science Congress, 585
Competition, dehydration, heart rate, running performance, training, S85
Competitive swimmers, sex differences, centre of buoyancy, 373
Concentric–eccentric actions, isokinetic muscle strength, sprint running, allometric models, 257
Concentric hypertrophy, eccentric hypertrophy, left ventricular mass, preload, remodelling, afterload, 129
Creatine supplementation, lactate, phosphocreatine, sprint swimming, ammonia, 271
Cricket, grip pressure, kinematics, kinetics, cinematography, 711
Cycling, exercise intensity, heart rate, overtraining, power, S91
Cyclists, endurance training, oxygen uptake kinetics, 733
Dehydration, heart rate, running performance, training, competition, S85
Development, fitness, motor tests, talent identification, anthropometry, 691
Dimorphism, diving, physique, proportionality, somatotype, 317
Discussion to the First International Conference on Heart Rate Monitoring and Exercise, S101
Dispositional factors, situational factors, state goals, 357
Diving, fulcrum, hurdle, natural frequency, running dives, take-off, 571
Diving, physique, proportionality, somatotype, dimorphism, 317

Eccentric hypertrophy, left ventricular mass, preload, remodelling, afterload, concentric hypertrophy, 129
Editorials, 1, 119, 209, 299, 387, 529, 601, S1
Efficiency, height, injuries, lactate, nutrition, training, vital capacity, aerobic power, biomechanics, body build, 603
Efficiency, oxygen deficit, oxygen uptake, prediction models, rowing, 749
Electromyography, elite athletes, heart rate, preparation, psychomotor regulation, shooting, 235
Elite athletes, heart rate, preparation, psychomotor regulation, shooting, electromyography, 235
Endurance running, prescribed drinking, recovery, rehydration, *ad libitum* drinking, carbohydrate supplementation, 143
Endurance training, oxygen uptake kinetics, cyclists, 733
Energy, female runners, menstrual status, nutrient intakes, body composition, body mass index, 629
Energy, long jump, joint power, vertical jump, 177
Energy expenditure, heart rate, physical activity, young people, S9
Epidemiology, mortality, physical fitness, S47
Exercise, health, heart rate, performance, S105
Exercise, health, heart rate, sport, bone, S25
Exercise, length–force relationships, muscle adaptation, muscle function, sarcomeres, 301
Exercise, motivation, motives, muscular development, 761
Exercise intensity, heart rate, lactate threshold, perceived exertion, S71
Exercise intensity, heart rate, metabolism, tennis, 739
Exercise intensity, heart rate, overtraining, power, cycling, S91
Exercise intensity, leg exercise, rowing, upper body exercise, arm exercise, arm + leg exercise, 309
Exercise training, heart rate, lactate, maximal oxygen uptake, performance, S77

Factor XIIa, high-density lipoprotein cholesterol, low-density lipoprotein cholesterol, walking, apolipoproteins, blood lipids, cardiovascular disease, 701

Female runners, menstrual status, nutrient intakes, body composition, body mass index, energy, 629
Field test, fitness, heart rate, 331
Fitness, heart rate, field test, 331
Fitness, motor tests, talent identification, anthropometry, development, 691
Fitness, psychological well-being, sense of effort, adrenocortical activity, 121
Fulcrum, hurdle, natural frequency, running dives, take-off, diving, 571

Generalized estimating equations, longitudinal relationships, resting heart rate, biological risk factors, cardiovascular disease, S17
Golf, three-dimensional kinematics, trunk rotation, 165
Grip pressure, kinematics, kinetics, cinematography, cricket, 711
Gymnastics, sports biomechanics, vaulting, video analysis, 349

Health, heart rate, performance, exercise, S105
Health, heart rate, sport, bone, exercise, S25
Health, lifeway habits, longevity, physical activity, athleticism, S31
Heart rate, field test, fitness, 331
Heart rate, lactate, maximal oxygen uptake, performance, exercise training, S77
Heart rate, lactate, swim bench, water polo, 251
Heart rate, lactate threshold, perceived exertion, exercise intensity, S71
Heart rate, metabolism, tennis, exercise intensity, 739
Heart rate, muscle damage, stretch--shortening cycle, ultramarathon, 645
Heart rate, overtraining, power, cycling, exercise intensity, S91
Heart rate, performance, exercise, health, S105
Heart rate, physical activity, young people, energy expenditure, S9
Heart rate, preparation, psychomotor regulation, shooting, electromyography, elite athletes, 235
Heart rate, running performance, training, competition, dehydration, S85
Heart rate, sport, bone, exercise, health, S25
Heart rate monitor, Polar, accuracy, ambulatory, S3
Height, injuries, lactate, nutrition, training, vital capacity, aerobic power, biomechanics, body build, efficiency, 603
High-density lipoprotein cholesterol, low-density lipoprotein cholesterol, walking, apolipoproteins, blood lipids, cardiovascular disease, factor XIIa, 701
Hurdle, natural frequency, running dives, take-off, diving, fulcrum, 571
Hydrogen ion buffering, muscle, taurine, carnosine, 639

Injuries, lactate, nutrition, training, vital capacity, aerobic power, biomechanics, body build, efficiency, height, 603
Intermittent exercise, males, rectal temperatures, thermoregulation, 677
Isokinetic muscle strength, sprint running, allometric models, concentric–eccentric actions, 257

Joint power, vertical jump, energy, long jump, 177

Kinematics, kinetics, cinematography, cricket, grip pressure, 711
Kinetics, cinematography, cricket, grip pressure, kinematics, 711
Knee extensors, knee joint injury, muscle inhibition, twitch interpolation, 281
Knee joint injury, muscle inhibition, twitch interpolation, knee extensors, 281
Kyphosis, lordosis, sportsmen, vertebral curvature, cluster analysis, 621

Lactate, maximal oxygen uptake, performance, exercise training, heart rate, S77
Lactate, nutrition, training, vital capacity, aerobic power, biomechanics, body build, efficiency, height, injuries, 603
Lactate, phosphocreatine, sprint swimming, ammonia, creatine supplementation, 271
Lactate, swim bench, water polo, heart rate, 251
Lactate threshold, perceived exertion, exercise intensity, heart rate, S71
Lactate threshold, protocol, stride rate, breathing frequency, 667
Left ventricular mass, preload, remodelling, afterload, concentric hypertrophy, eccentric hypertrophy, 129
Leg exercise, rowing, upper body exercise, arm exercise, arm + leg exercise, exercise intensity, 309
Length–force relationships, muscle adaptation, muscle function, sarcomeres, exercise, 301
Lifeway habits, longevity, physical activity, athleticism, health, S31
Lipids, lipoproteins, secondary prevention, cardiac rehabilitation, S57
Lipoproteins, secondary prevention, cardiac rehabilitation, lipids, S57
Long jump, joint power, vertical jump, energy, 177
Longevity, physical activity, athleticism, health, lifeway habits, S31
Longitudinal relationships, resting heart rate, biological risk factors, cardiovascular disease, generalized estimating equations, S17
Lordosis, sportsmen, vertebral curvature, cluster analysis, kyphosis, 621
Low-density lipoprotein cholesterol, walking, apolipoproteins, blood lipids, cardiovascular disease, factor XIIa, high-density lipoprotein cholesterol, 701

Males, rectal temperatures, thermoregulation, intermittent exercise, 677
Maximal oxygen uptake, performance, exercise training, heart rate, lactate, S77
Measurement, median, reliability, anthropometry, 755
Median, reliability, anthropometry, measurement, 755
Menstrual status, nutrient intakes, body composition, body mass index, energy, female runners, 629
Metabolism, tennis, exercise intensity, heart rate, 739
Midsole density, athletic shoes, biomechanics, 531
Mortality, physical fitness, epidemiology, S47
Motivation, motives, muscular development, exercise, 761
Motivation, Perception of Success Questionnaire, achievement goals, 337
Motivational climate, achievement cognitions, affect, 153
Motives, muscular development, exercise, motivation, 761
Motor tests, talent identification, anthropometry, development, fitness, 691
Muscle, taurine, carnosine, hydrogen ion buffering, 639
Muscle adaptation, muscle function, sarcomeres, exercise, length–force relationships, 301
Muscle damage, stretch–shortening cycle, ultramarathon, heart rate, 645
Muscle function, sarcomeres, exercise, length–force relationships, muscle adaptation, 301
Muscle inhibition, twitch interpolation, knee extensors, knee joint injury, 281
Muscle stimulation, skeletal muscle, strength training, 267
Muscular development, exercise, motivation, motives, 761
Muscular strength, performance, power, taekwon-do, aerobic, anaerobic, 243

Natural frequency, running dives, take-off, diving, fulcrum, hurdle, 571
Nutrient intakes, body composition, body mass index, energy, female runners, menstrual status, 629
Nutrition, training, vital capacity, aerobic power, biomechanics, body build, efficiency, height, injuries, lactate, 603

Overtraining, power, cycling, exercise intensity, heart rate, S91
Oxygen deficit, oxygen uptake, prediction models, rowing, efficiency, 749
Oxygen uptake, prediction models, rowing, efficiency, oxygen deficit, 749
Oxygen uptake kinetics, cyclists, endurance training, 733

Perceived exertion, exercise intensity, heart rate, lactate threshold, S71
Perception of Success Questionnaire, achievement goals, motivation, 337
Performance, exercise, health, heart rate, S105
Performance, exercise training, heart rate, lactate, maximal oxygen uptake, S77
Performance, power, taekwon-do, aerobic, anaerobic, muscular strength, 243
Phosphocreatine, sprint swimming, ammonia, creatine supplementation, lactate, 271
Physical activity, athleticism, health, lifeway habits, longevity, S31
Physical activity, young people, energy expenditure, heart rate, S9
Physical fitness, epidemiology, mortality, S47
Physiology, rugby union, time–motion analysis, 561
Physique, proportionality, somatotype, dimorphism, diving, 317
Polar, accuracy, ambulatory, heart rate monitor, S3
Power, cycling, exercise intensity, heart rate, overtraining, S91
Power, taekwon-do, aerobic, anaerobic, muscular strength, performance, 243
Prediction models, rowing, efficiency, oxygen deficit, oxygen uptake, 749
Preload, remodelling, afterload, concentric hypertrophy, eccentric hypertrophy, left ventricular mass, 129
Preparation, psychomotor regulation, shooting, electromyography, elite athletes, heart rate, 235
Prescribed drinking, recovery, rehydration, *ad libitum* drinking, carbohydrate supplementation, endurance running, 143
Proportionality, somatotype, dimorphism, diving, physique, 317
Protocol, stride rate, breathing frequency, lactate threshold, 667
Psychological well-being, sense of effort, adrenocortical activity, fitness, 121
Psychomotor regulation, shooting, electromyography, elite athletes, heart rate, preparation, 235

Recovery, rehydration, *ad libitum* drinking, carbohydrate supplementation, endurance running, prescribed drinking, 143
Rectal temperatures, thermoregulation, intermittent exercise, males, 677
Rehydration, *ad libitum* drinking, carbohydrate supplementation, endurance running, prescribed drinking, recovery, 143
Reliability, anthropometry, measurement, median, 755
Remodelling, afterload, concentric hypertrophy, eccentric hypertrophy, left ventricular mass, preload, 129
Resting heart rate, biological risk factors, cardiovascular disease, generalized estimating equations, longitudinal relationships, S17

Rowing, efficiency, oxygen deficit, oxygen uptake, prediction models, 749
Rowing, upper body exercise, arm exercise, arm + leg exercise, exercise intensity, leg exercise, 309
Rugby union, time–motion analysis, physiology, 561
Running dives, take-off, diving, fulcrum, hurdle, natural frequency, 571
Running performance, training, competition, dehydration, heart rate, S85

Sarcomeres, exercise, length–force relationships, muscle adaptation, muscle function, 301
Secondary prevention, cardiac rehabilitation, lipids, lipoproteins, S57
Sense of effort, adrenocortical activity, fitness, psychological well-being, 121
Shooting, electromyography, elite athletes, heart rate, preparation, psychomotor regulation, 235
Shooting, simulation, 'archer's paradox', archery, arrow motion, 721
Simulation, 'archer's paradox', archery, arrow motion, shooting, 721
Situational factors, state goals, dispositional factors, 357
Skeletal muscle, strength training, muscle stimulation, 267
Soccer, soccer equipment, soccer injury, soccer skills, biomechanics, 211
Soccer equipment, soccer injury, soccer skills, biomechanics, soccer, 211
Soccer injury, soccer skills, biomechanics, soccer, soccer equipment, 211
Soccer skills, biomechanics, soccer, soccer equipment, soccer injury, 211
Somatotype, dimorphism, diving, physique, proportionality, 317
Sport, bone, exercise, health, heart rate, S25
Sport teams, status, cohesion, 187
Sports biomechanics, vaulting, video analysis, gymnastics, 349
Sportsmen, vertebral curvature, cluster analysis, kyphosis, lordosis, 621
Sprint running, allometric models, concentric–eccentric actions, isokinetic muscle strength, 257
Sprint swimming, ammonia, creatine supplementation, lactate, phosphocreatine, 271
State goals, dispositional factors, situational factors, 357
Status, cohesion, sport teams, 187
Strength training, muscle stimulation, skeletal muscle, 267
Stretch–shortening cycle, ultramarathon, heart rate, muscle damage, 645
Stride rate, breathing frequency, lactate threshold, protocol, 667
Swim bench, water polo, heart rate, lactate, 251
Swimming, velocity variation, video analysis, breaststroke styles, centre of mass, 653

Taekwon-do, aerobic, anaerobic, muscular strength, performance, power, 243
Take-off, diving, fulcrum, hurdle, natural frequency, running dives, 571
Talent identification, anthropometry, development, fitness, motor tests, 691
Talent identification, canoeing, 539
Taurine, carnosine, hydrogen ion buffering, muscle, 639
Tennis, exercise intensity, heart rate, metabolism, 739
Thermoregulation, intermittent exercise, males, rectal temperatures, 677
Three-dimensional analysis, turning techniques, alpine skiing, biomechanics, 545
Three-dimensional kinematics, trunk rotation, golf, 165
Time–motion analysis, physiology, rugby union, 561
Training, competition, dehydration, heart rate, running performance, S85
Training, vital capacity, aerobic power, biomechanics, body build, efficiency, height, injuries, lactate, nutrition, 603
Trunk rotation, golf, three-dimensional kinematics, 165
Turning techniques, alpine skiing, biomechanics, three-dimensional analysis, 545
Twitch interpolation, knee extensors, knee joint injury, muscle inhibition, 281

Ultramarathon, heart rate, muscle damage, stretch–shortening cycle, 645
Upper body exercise, arm exercise, arm + leg exercise, exercise intensity, leg exercise, rowing, 309

Vaulting, video analysis, gymnastics, sports biomechanics, 349
Velocity variation, video analysis, breaststroke styles, centre of mass, swimming, 653
Vertebral curvature, cluster analysis, kyphosis, lordosis, sportsmen, 621
Vertical jump, energy, long jump, joint power, 177
Video analysis, breaststroke styles, centre of mass, swimming, velocity variation, 653
Video analysis, gymnastics, sports biomechanics, vaulting, 349
Vital capacity, aerobic power, biomechanics, body build, efficiency, height, injuries, lactate, nutrition, training, 603

Walking, apolipoproteins, blood lipids, cardiovascular disease, factor XIIa, high-density lipoprotein cholesterol, low-density lipoprotein cholesterol, 701
Water polo, heart rate, lactate, swim bench, 251

Young people, energy expenditure, heart rate, physical activity, S9

Journal of Sports Sciences, 1998, **16**, 776–777
